PROJECT STACK

- React + Vite
- FastAPI + Python
- MySQL + SQLAlchemy
- JWT + SMTP

Prepared from today's local walkthrough and user-provided verification evidence.

Phase 3 - implementation and verification summary

This standalone report documents the PeopleDesk HRMS Phase 3 work demonstrated during the local walkthrough on 15 October 2026. It summarizes the additional calendar, shift, notification, compensation and December payroll workflows with screenshot and salary-slip evidence.

Additional functional coverage

AREA	OBSERVED IMPLEMENTATION / EVIDENCE	STATUS
Holiday calendar	November 2026 calendar displays Diwali on 8 November (company-wide) and Chhath Puja on 15 November (regional - Bihar). The dates are user-configured calendar entries; this report does not independently verify official holiday dates.	Verified in UI
Shift scheduling	General shift configured for 10:30-18:00 with 10-minute grace, 60-minute break and 30-minute overtime threshold. Employee-specific assignment is effective from 15 October 2026.	Verified in UI
Shift-wise report	Attendance dated 12-14 October is shown as Unassigned. This is expected because the shift assignment starts on 15 October and prior attendance is not retroactively assigned.	Expected behavior
In-app notifications	Organization announcement "HRMS Payroll Update" appears unread; notification preferences for leave, payroll, attendance and announcements are enabled in the capture.	Verified in UI
Compensation	Active HRA component is 20% of basic pay. For December, revision #3 is effective from 1 December 2026; base salary INR 45,000, basic pay INR 30,000 and revision allowances INR 0 to avoid double-counting HRA.	Verified in preview
December payroll	Aprajit Roshan (EMP0015), pay period 2026-12: net salary INR 51,000.00, record status Processed. The generated PDF salary slip matches the stored total.	Verified in UI/PDF

December salary calculation
Base salary INR 45,000.00 + HRA component INR 6,000.00 + other earnings INR 0.00 - deductions/LOP INR 0.00 = **net salary INR 51,000.00**. Basic pay INR 30,000.00 is disclosed as a breakdown of base salary and is not added again. The evidence shows the payroll record as Processed, not locked or credited.

The screenshots that follow are local application captures supplied during the walkthrough. No bank transfer is performed by the salary-credit simulation in PeopleDesk HRMS.

Evidence 01 - Holiday calendar management

The November 2026 calendar and holiday list show two configured entries: Diwali (8 November, company-wide) and Chhath Puja (15 November, regional Bihar). The form distinguishes company-wide and regional holidays, and the list exposes deactivation actions.

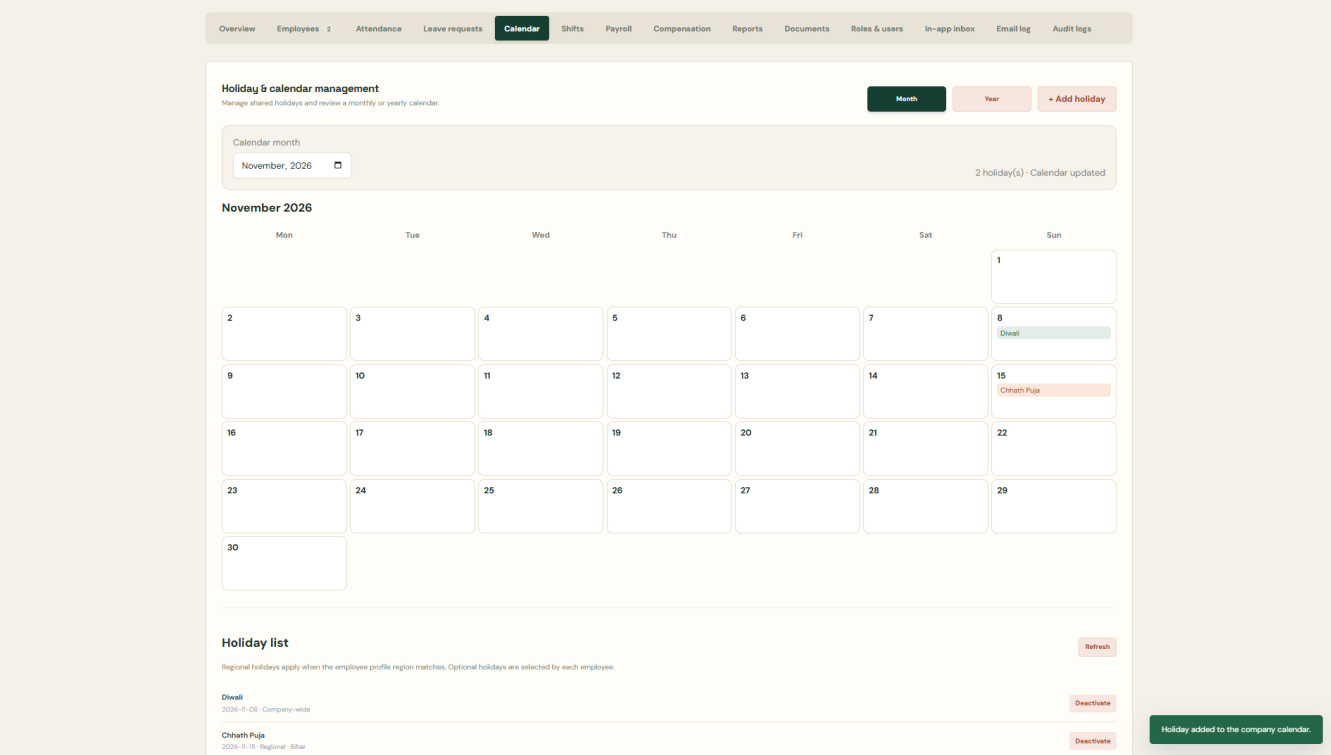

Figure 1. November 2026 holiday calendar showing Diwali and Chhath Puja in the calendar and list.

Validation note: this evidence verifies that the entries are stored and displayed by the application. It does not validate the dates against an official holiday source.

Evidence 02 - Shift scheduling and shift-wise attendance

The configured General shift runs 10:30-18:00 with a 10-minute grace period, a 60-minute break and a 30-minute overtime threshold. The employee-specific assignment for Aprajit Roshan is effective from 15 October 2026.

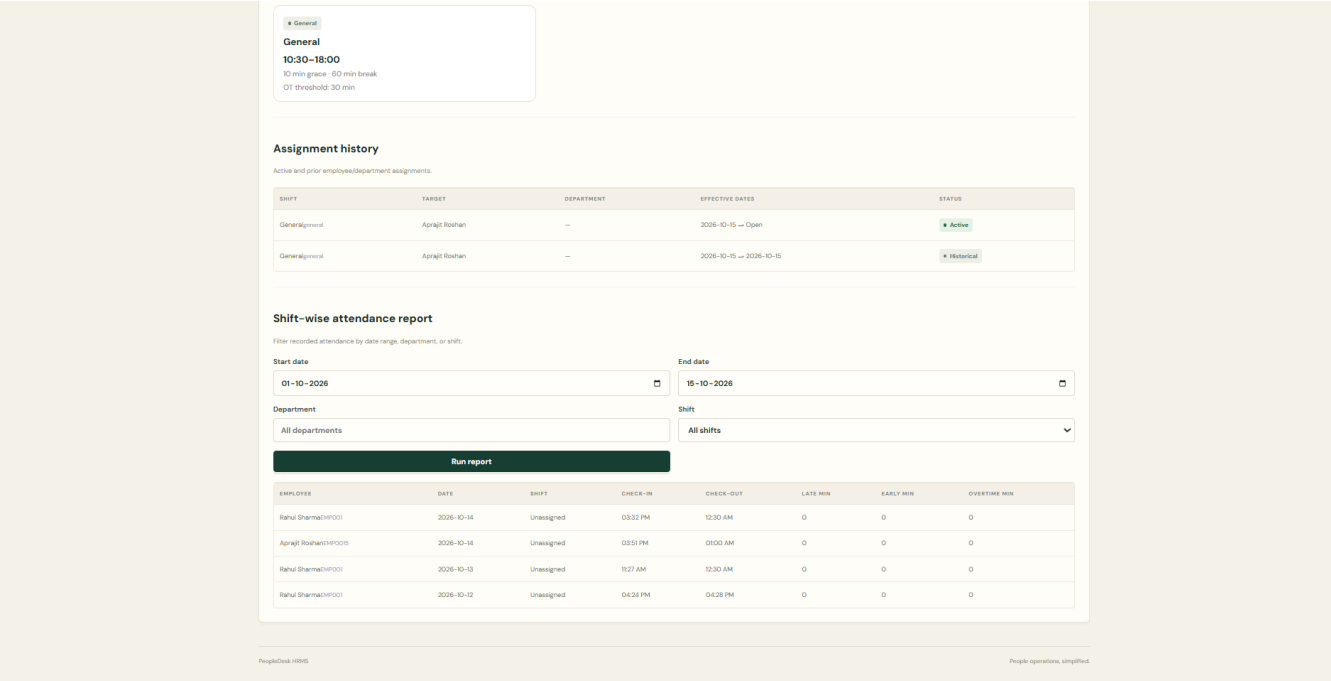

Figure 2. Shift assignment history and shift-wise attendance report. The table shows 12-14 October attendance records as Unassigned because they pre-date the 15 October effective assignment.

Interpretation
The report does not retroactively assign the new General shift to historical attendance. The Unassigned label for 12-14 October is consistent with the assignment effective date and is not treated as a report failure.

Evidence 03 - In-app notification center

The notification center supports organization announcements, unread tracking and account-level preferences for leave updates, payroll updates, attendance alerts and announcements.

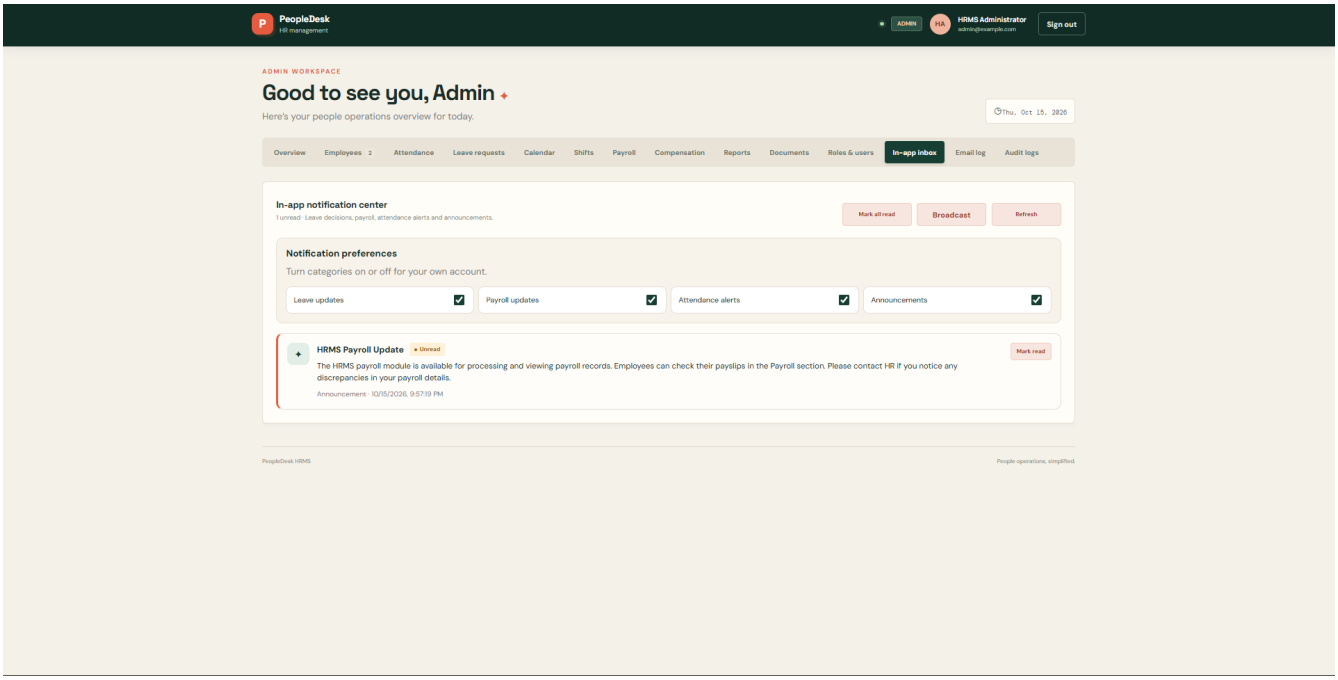

Figure 3. The "HRMS Payroll Update" organization announcement is visible with an Unread indicator. The screen shows one unread notification and all four preference categories enabled.

CHECK	OBSERVED RESULT
Announcement	HRMS Payroll Update
Unread count	1
Preferences	Leave, payroll, attendance and announcements enabled in the capture

Evidence 04 - Effective compensation and payroll preview

The payroll form preview identifies the effective compensation revision for December 2026 before a record is created. It shows revision #3 effective from 1 December 2026 onward and displays the component calculation used for the estimate.

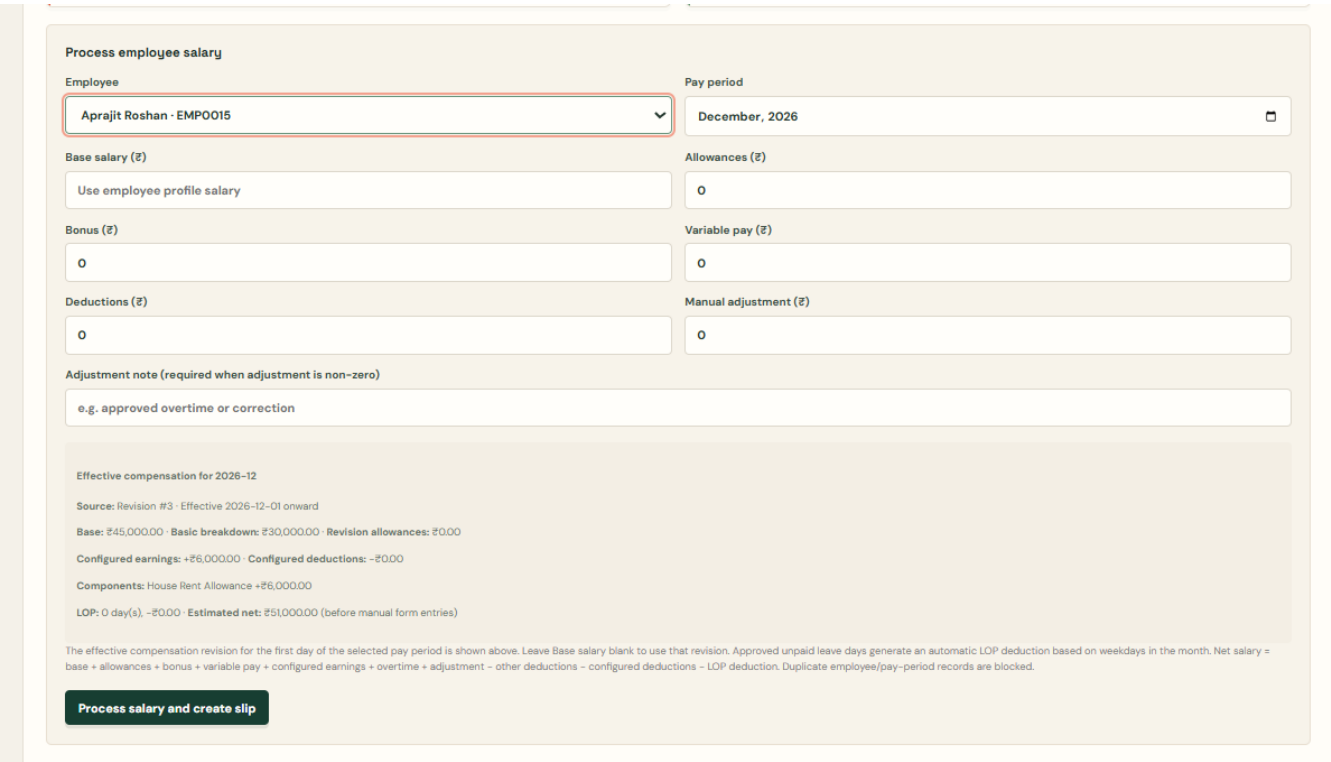

Figure 4. December payroll preview showing revision allowances INR 0.00, HRA component INR 6,000.00 and estimated net salary INR 51,000.00 before manual form entries.

ITEM	DECEMBER 2026 VALUE
Base salary	INR 45,000.00
Basic pay (included in base salary)	INR 30,000.00
Revision allowances	INR 0.00
HRA component (20% of basic)	INR 6,000.00
Estimated net salary (before form entries)	INR 51,000.00

Evidence 05 - December payroll record

After confirming the preview, a December 2026 payroll record was created for Aprajit Roshan (EMP0015). The application lists one record for the selected period, with the record status Processed.

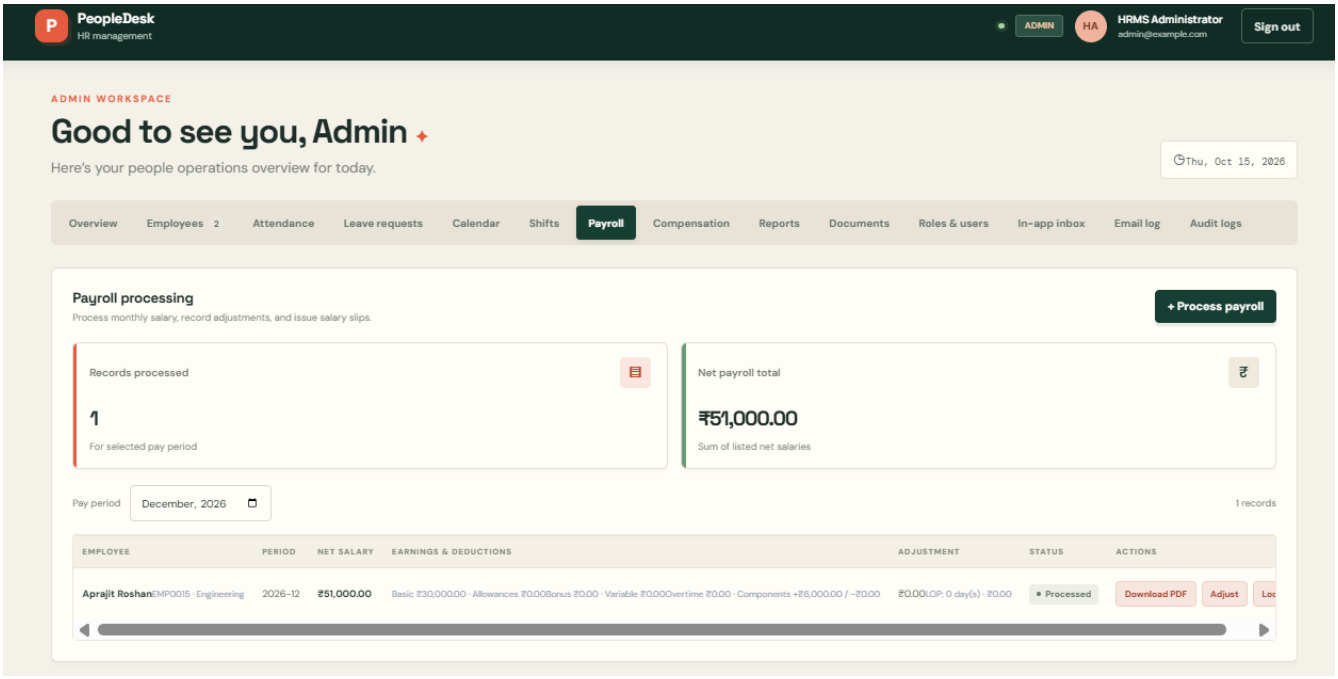

Figure 5. December payroll list displaying Aprajit Roshan, period 2026-12, net salary INR 51,000.00 and status Processed.

FIELD	VERIFIED VALUE
Employee	Aprajit Roshan (EMP0015)
Pay period	December 2026 / 2026-12
Net salary	INR 51,000.00
Status at capture	Processed

The record is not shown as locked or credited in the supplied screenshot. Do not interpret this processed status as a real salary payment.

Evidence 06 - Generated December salary slip

The generated salary-slip PDF is consistent with the December payroll list. It shows the salary breakdown, HRA component, zero deductions and net salary for pay period 2026-12.

PeopleDesk — Salary Slip

Pay period: **2026-12**

Employee Details

Employee	Aprajit Roshan
Employee code	EMP0015
Department	Engineering
Designation	Software Engineer
Email	aprajit.roshan@gmail.com

Salary Breakdown

Component	Amount
Base salary (monthly gross base)	INR 45,000.00
Basic pay (included in base salary)	INR 30,000.00
Allowances	INR 0.00
Bonus	INR 0.00
Variable pay	INR 0.00
Overtime hours	0.00
Overtime pay	INR 0.00
House Rent Allowance	INR 6,000.00
Other deductions	- INR 0.00
Configured deductions	- INR 0.00
LOP days	0
LOP deduction	- INR 0.00
Attendance days	0
Paid leave days	0
Manual adjustment	INR 0.00
NET SALARY	**INR 51,000.00**

This is a system-generated salary slip. Salary credit status is simulated in this application; no bank transfer is made.

Figure 6. PeopleDesk salary slip for December 2026. Base salary INR 45,000.00, basic-pay disclosure INR 30,000.00, HRA INR 6,000.00 and net salary INR 51,000.00.

Submission conclusion
The additional walkthrough demonstrates holiday-calendar configuration, effective-dated shift assignment and reporting, organization-wide in-app announcements, effective-dated compensation selection and a generated December payroll/salary-slip record. The December record is verified as Processed at capture. Salary-credit behavior remains a simulation only; no bank transfer occurs.
